Personal Statement

I am a Mobile Developer passionate about technology and using it as a tool to solve problems in my society. With my skills in mobile development, I am able to translate designs and wireframes into high quality code that is reusable and maintainable. I also have the ability to understand business requirements and translate them into technical requirements based on client needs.

Technical skills

- Intermediate knowledge of Kotlin
- Good understanding of React Native
- Good understanding of React JS
- Basic knowledge of Django Framework.
- Good understanding of Graph Ql
- Good understanding of nodejs
- Basic understanding of redux
- Working knowledge of version control tool e.g GIT
- Database management and integration(mysql, sqlite, mongo db) with GraphQL
- Adobe Creative Suite (InDesign, Illustrator, Xd)

Education Background

AkiraChix Feb 2020 - Nov 2020

codeHive program –Diploma in Information Technology

Relevant modules

- **Front End Web development**
    - React JS framework
    - HTML/CSS
    - Objects
    - redux
- **Mobile development**
    - Kotlin
    - Android Studio
    - React native
    - Android Studio
- **Backend development**
    - API development using Django framework

- Object oriented programing using Python
- Databases with mongo db, mysql
- Node js
- Postgres
- Mysql

- **Hardware Electronic**
    - Arduino
    - TinkerCad

- **Hardware design**
    - Fusion 360.
    - Sketching/Design Thinking
    - Prototyping
    - Testing

- **UI/UX design**
    - Adobe Tools
    - Wireframes
    - MockUps

- **Entrepreneurship**
    - Lean product process
    - Market segmentation
    - Product testing
    - Mvp

Achievements

Feb 2021 up to date   – **Software Engineer The Golazo Project**

Oct 2020 up to date   – **AkiraChix Ambassador**

Sept 2020 – Feb 2021   – **Mobile developer Intern The Golazo Project**

13th December 2020   – **Certificate of participation African Freedom of information Center public procurement hackathon.**

Projects
- Mobile development-Insta-clone app
    https://github.com/ayinembabaziphionah/InstaClone
- Python- Program for managing deposits and withdraws of a bank account
    https://github.com/ayinembabaziphionah/bank
- Frontend web development-digital watch and digital calculator

https://digcalc.netlify.app/
https://festive-golick-4b1843.netlify.app/

Bright Future High School- Feb 2013- Nov 2018
Advanced Certificate of Education.
Ordinally Certificate of Education.
